

How to clear cache in Firefox

1. At your **Firefox** browser, click **Open menu** button on the upper right hand corner, then click **Options**.

2. Click **Privacy & Security** on the left. Under **History** section, click **Clear History...** button.

3. From the **Clear Recent History** window, choose **Everything** for **Time range to clear** drop down menu, check **all the boxes** under **History** and **Data** section, then click **OK** button. Restart your browser.
